

Safety. Health. Environmental. Quality.

Our SHEQX management solution aggregates SHEQ data into a single, auditable database and manages analysis and reporting effectively to ensure effective compliance and a more robust approach to corporate sustainability.

Why our SHEQX Solution is good for business

Easy System Integration

- An open API solution that integrates with products like Payroll, HR Systems, Financial Systems, Biometrics etc.

Cloud-based Solution

- Mobility, accessibility, enhanced functionality and services on demand without costly infrastructure

Security

- Assured data security using multiple encryptions and secure connections

Smart Compare

- Checks PPE issued, training records and medicals from an employee/contractor against their job profile
- Notifies managers of employee/contractor eligibility

Smart Reminders

- Peace of mind on document and process expiry dates

USSD Integration

- Provides the capability to log records in the systems from anywhere using any GSM mobile device

Visual Audit Trail

- Displays who has interacted with the records that you own, like a social media timeline

Driving compliance, sustainability and performance with our popular SHEQX Modules:

Our suite of modules will help drive compliance with international standards and guidelines such as ISO 9001, ISO 14001, OHSAS 18001 and more. SHEQX is an integrated management system with links between all modules within our solution.
