

Vendor Compliance Management

Vendor Compliance Management (VCM) is our integrated Request For Quotation (RFQ) and tender management solution. It is a Microsoft Azure cloud-based platform that provides a central vetted supplier database for the private sector. VCM provides companies with the complete visibility of their suppliers' level of compliance regarding:

Legal (Companies Act)

B-BBEE

Technical

Why our VCM solution is good for business

- Replace labour intensive, traditional vendor application
- In-depth vetting of suppliers' compliance
- Client dashboard view of suppliers' compliance
- Maintain suppliers' profiles for re-vetting
- Mobile application available for suppliers
- Vet documentation with issuing institutions

VCM x RFQ and Tender Management

- RFQs are issued to specific commodities and not selected suppliers, creating equal opportunities
- RFQs are issued to registered and vetted suppliers only, creating buyer transparency
- The buyer determines the adjudication criteria
- Submitted RFQ responses are automatically adjudicated based on the determined criteria
